Re № \_\_\_\_\_

Dear Sirs,

Regret to inform you that MV FESCO DIOMID, v.508 was delayed in Shanghai due to bad weather conditions and new system testing by Terminal resulted suspending of handling for all vessels at Shanghai Pudong International Container Terminal (SPICT). As result, our Vessel was delayed for the calling at all ports respectively during next voyage - v.510.

Affected by further delay of MV FESCO DIOMID, v.510 in Hong Kong due to Terminal congestion (ETD Hong Kong 14.06.2011 0800 LT), both vessels MV FESCO DIOMID & MV FESCO TRADER will be in Ningbo at the same date – ETA Ningbo 16.06.2011. Taking into account above situation and trying to recover MV FESCO DIOMID long-term schedule we will skip Ningbo during current voyage – v.510. All MV FESCO DIOMID bookings in Ningbo will be transferred to MV FESCO TRADER.

We are very sorry for any inconvenience and negative effects arising from the above case. Hope for understanding and further cooperation.

FCDL Liner Director \_\_\_\_\_

E.Astapenko
